

If you think you will be interested in using any part of the ELI infrastructure in the future, please provide the following details:

- name;
- institution;
- scientific area;
- pillar of ELI you expect to use.

What is unique about ELI for your science area?

How would your science area be impacted if the UK was not involved in ELI?

Does your research area “link” to an area that is a strategic priority for UKRI and / or the UK Industrial Strategy?
